## **DETAILED ACTION**

### ***Information Disclosure Statement***

The information disclosure statement (IDS) submitted on 2/5/04 was filed before the mailing date of the first actions on the merits. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 65, line 3, insert -- a-- before "microelectromechanical".

### ***Allowable Subject Matter***

Claims 51-70 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art references fail to teach: a first substrate having at least one functional element and at least two metal leads thereon, at least one of the two metal leads being connected to the functional element; a second substrate having a silicon portion, a silicon oxide portion, at least one recessed cavity in the silicon portion, and at least two metal connectors in the recessed cavity; a first bond between a non-recessed surface of the

silicon portion of the second substrate and the first substrate wherein the at least one recessed cavity is hermetically sealed thereby, and wherein the functional element and connected metal lead of the first substrate are enclosed within the at least one recessed cavity of the second substrate and hermetically sealed therein; a second bond between each of the at least two metal connectors of the second substrate and a respective one of the at least two metal leads of the first substrate as specified in claim 51. Also: microelectromechanical device positioned on the first substrate; an electrically conductive lead positioned on the first substrate and electrically coupled to the a microelectromechanical device; a second substrate bonded to the first substrate such that the microelectromechanical device is hermetically sealed within a cavity in the second substrate; an electrically conductive bonding pad extending through the second substrate as specified in claim 65.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
